About Us .

I am Pankaj Wankhede, a multidisciplinary designer with a 22+ year creative journey, blending experience in digital design, visual storytelling, and interior and spatial design.

My work focuses on creating meaningful, functional, and visually engaging experiences across both digital and physical spaces.

With a strong background in User Experience, design systems, and enterprise solutions across industries like Telecom, Media, Oil and Gas, Banking, and Insurance, I bring a structured yet creative approach to every project.

I strongly believe, "Nature is the only source of innovation and creativity." Nature inspires my thinking, guiding me to design spaces that feel alive, balanced, and connected to human emotions through the elements of nature.

22 Years
Experience.

INTERIORS

Design. Philosophy

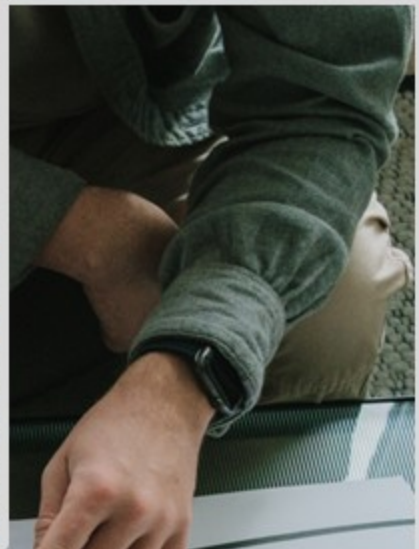

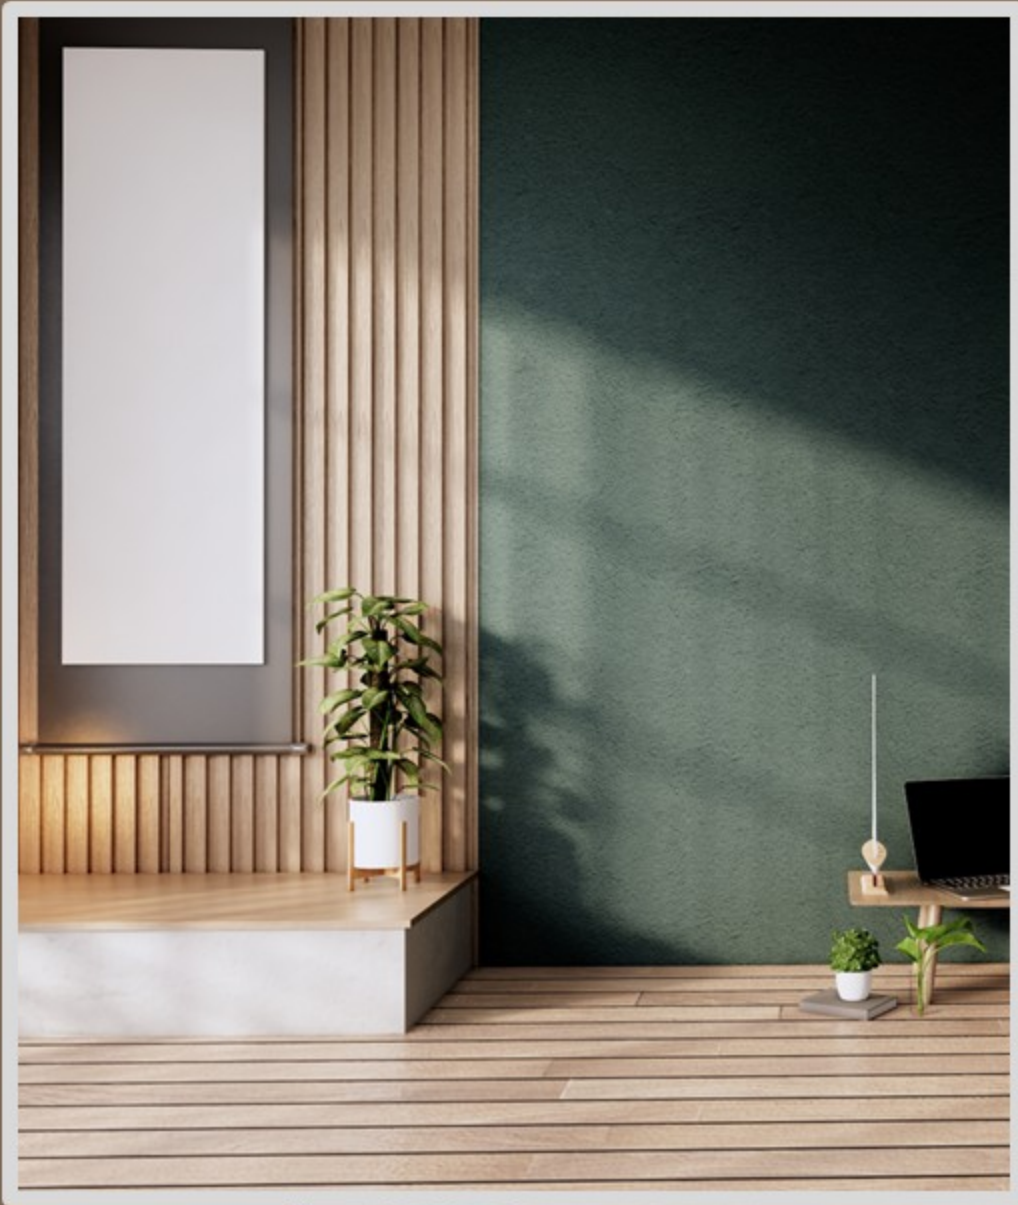

We believe great design is both personal and practical.

Every space should reflect the people who live or work in it while offering comfort and functionality.

Interior. Design Services

- Interior Design Consultancy
- Space Planning
- Color & Material Selection
- Turnkey Projects
- Renovation Support
- Site Supervision

Design

Portfolio
RESIDENTIAL PROJECT
3 BHK

A thoughtfully designed 3BHK home for a doctor couple with two toddlers, focusing on functionality, safety, and calm aesthetics. The design integrates smart storage, child-friendly planning, and a clean, modern look—creating a comfortable and efficient living space for a busy young family.

Master. Bedroom

For the master bedroom, the client envisioned a plain, solid-coloured space—calm, understated, and free from distractions. We translated this into a design that relies on tonal harmony, soft textures, and precise detailing rather than excessive elements. The simplicity of the palette enhances the sense of space, creating a sophisticated retreat that feels शांत, balanced, and effortlessly premium.

Kitchen & Dining Space

Our ■ Ongoing Projects

More than just visuals, these renders communicate the essence of the space. Every element is curated to create a strong first impression—aligning design intent with the lifestyle and personality of the end user.

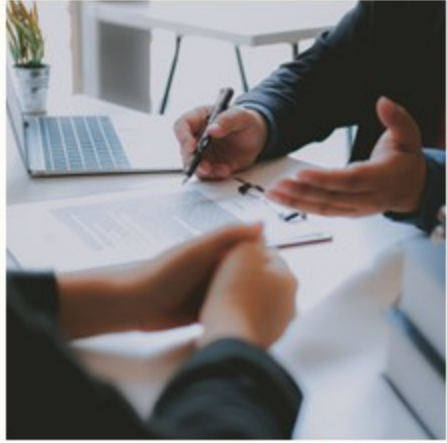

A glimpse into an evolving space—these renders translate ideas into visual reality. They highlight the intent, mood, and character of the design, ensuring clarity and confidence before it transforms into a physical experience.
